## **BIG DIFFERENCE** IN CAMPAIGNS

Being Made by Republicans and Democrats.

#### ONE DECENT, THE OTHER DIRTY ONLY ONE WEEK GIVEN

No Chance of the Baltimore Convention Being Stampeded to Bryan.

THINKS CLARK SURE WINNER

(Special to The Herald.)

Washington, June 8 .- There is much difference in the campaign being made by the Democratic aspirants for the Presidential nomination and that of the Republicans that it is almost a sacrilege to mention both contests in the same letter. Nearly everybody in the political world in Washington is contrasting the decency and dignity of the Democratic candidates with that of the Republicans. When any patriotic citizen sits down quietly and figures on the vituperative, disgusting and abhorrent campaign made by the Republicans and the quiet, decent and statesmanlike attitude of such men as Champ Clark, Woodrow Wilson and Oscar Underwood, they can come to but one conclusion: that is, there is not a Democratic candidate who would not make a better President than either of the candidates on the Republican ticket. So far as the Democratic candidates are concerned, the Honorable Champ Clark is still away in the lead. He has been carbrief campaign over other candidates who have been busy since last fall.

There is just now a lot of unfounded gossip about Colonel William J. Bryan getting into the fight once more at Baltimore and having his friends attempt to stampede preparatory orders for the dispatch they will control twenty-eight the truth. Mr. Underwood knows thoroughly and well that if Mr. Clark is nominated, he will be elected President. In that case it means a Democratic House of Representatives also, and that means Underwood for Speaker of the next House. That is the biggest job in this country except the Presidency and with the make as Speaker, he would succeed Mr. Clark as President because he to wait a few years. CUBAN GOVERNMENT

Washington, June 8 .- The United States Government has given President Gomez of Cuba one week in which to show that he is able to put down the Negro rebellion, according to reports in official circles here to-day. She has only stood at her post ing sickness and poverty and loneliness and disappointment so quietly, with such a Spartan fortitude, that the world has never even noticed her achievements; and yet, in man, the battle-scarred veteran, with medals signifying valor, may well stand uncovered, for one braver than he is passing by.

There is nothing high and heroic in her appearance. She is just a commonplace woman, plainly dressed, with a tired face and work-worn hands-the kind of woman that you meet a hundred times a day upon He is a Man of Intellect and It will take just about a year to Prices Higher Now Than Ever a second glance, still less saluting her as a heroine. The husband must present a decent appearance, for policy's sake, when he goes to business; certain things are necessities for the children; and so the heaviest of all the deprivations fall upon the woman who makes one dollar do the work of five.

This is the way of the Ordinary Woman; and what sacrifices she makes, what tastes she crucifies, what longings for pretty things and dainty things she smothers, not even her own family guess. For each of her children she trod the Gethsemane of woman, only to go through that slavery of motherwho is too poor to hire competent nurses. For years she never knew unbroken sleep. The small hours of the morning found her walking the colic, or nursing the croup, or covering restless little sleepers or putting water to thirsty lips.

There was no rest for her day or night. There was always a child in her arms or clinging to her skirts. Oftener than not she was sick and nerve-worn and weary almost to death, but she never failed to rally to the call of "Mother!" as a good soldier always rallies to his battle-cry.

Nobody called her brave, and yet when one of the children came down with malignant diphtheria, she braved death a hundred times, in bending over the ltitle sufferer. without one thought of danger. But she did not falter in her selfsacrifice. She worked a little harder, she denied herself a little more, to give them the advantages that she never had. In this she was only like millions of other Ordinary Women who are toiling over cooking-stoves, slaving at sewing-machines, pinching and economizing to educate and cultivate their children-digging with their own hands the chasm that will separate them almost as much as death.

Wherefore I say the Ordinary Woman is the real heroine of life. -[Elizabeth Meriwether Gilmer in Kentucky Standard.

Declaring that the Federal Constitution is now being deliberately violated, and advocating as a woimmediate reduction of the tariff, Dr. Shaw urges that "the guarantee of the Constitution to protect the States in a republican form of government presupposes that no State would have the power to disfranchise any class or sex of its citizens without due cause, or to establish as a qualification for citizenship the insuperable barrier of sex, which disqualifies one-half of its citizens from voting."

Taking up the matter of educa-tion, Dr. Shaw advocates "the appointment of a commission with power to investigate various educational systems and to collaborate on the subject." from them a system of education which would develop the whole nature of the child and make it into a useful and intelligent citizen with a reasonable knowledge of the duties and obligations of ditizens. There are several fellows yet to come to the bat before Teddy makes his Third base

It is now generally understood that Rooseveltism is not only a disease but an epidemic.

Those fellows who would rather be right than President, have a lot of chances these days.

And still we hear little or nothing about a Vice Presidential can-

"There is no occasion for bolting if the decisions are honest," says Teddy. But there's that ominous

It is said, that the oldest woman voter in California is for Taft. Can it be that he has captured the "old maid" vote?

Mr. LaFollette is still bragging that he is the only Republican candidate for the Presidency who carried his own State in the preference primaries.

President Taft has complained, in his scrap with Teddy, that he has been "hit below the belt." Wouldn't it have been awful if he had been hit right on the belt line?

Let us hope that the recent insane political agitation with which our country has been afflicted will not project its influence into our national holiday and that we will have a sane Fourth of July.

One of the most important gatherings ever held in the State will be that of the Kentucky Educational Association to be held in Louisville. June 25, 26 and 27. No progressive teacher should fail to attend.

charges that it costs six dollars to bath houses. He very properly adds that such Governmental extrava- passed by the recent Legislature is gance is inexcusable.

President Taft can hit the bull's eve once in awhile, as when in a recent speech he said: "Mr. Roosevelt likens himself to Abraham Lincoln, whom he more and more resembles less than any man in the history of this country."

In the matter of delegates to the Republican National Convention, there seems to be a difference between what was "bought and sold" settled at Chicago the 18th.

It is said that speculators are offering \$50 each for seats in the Republican National Convention which meets in Chicago June 18. It will no doubt be much safer in a seat off to one side, and almost any fellow's do more good for the public wellife or limb ought to be worth fifty plunks or more.

The "greatest show on earth" will open at Chicago next Tuesday, the 18th. As usual, the elephant will be one of the prime attractions. From a glance at the acrobats in waiting, however, it looks now like the faithful old critter will be ridden almost to death.

Mrs. Alice Roosevelt Longworth has taken the initiative and heading a crowd of feminine followers. it has been decided that the women must remove their hats at the Republican National Convention. It was agreed that "it is almost an impertinence and assuredly a discourtesy for women to keep on their hats." If all this is true in a political assemblage, ought not the same rule apply in the house of God during the preaching hour?

It is said that Lord Haldon, a member of the English peerage, was recently sued by his grocers for \$20 "for goods supplied" and judgment went against him, although he affirmed he did not owe the bill. After the verdict, Lord Haldon observed in court: "I won't pay it. I am going to America next week." That sounds a whole lot like a familiar incident that occurs in a country newspaper office once in awhile when a subscriber refuses to pay his dues ("goods supplied") and departs for another place, leaving no address. But thank goodness, there are only a few of these "English" sort of fellows.

The talk of a third man or a dark horse winning the Republican Presidential nomination is subsiding very materially. The reason is there is no able or self-respecting Republican willing to take the nomination with the conditions facing him after the campaign of vituper-

The Hartjord Herald ation between Tast and Roosevelt. He knows he would be defeated and he is not hankering to become a vicarious sacrifice simply to pull the chestnuts of a few standpat Republicans out of the fire. So it does not make any difference to the Democrats of this country who is nominated on the Republican ticket; they will beat that candidate to a frazzle.

years are "sold" in public to the highest bidders, at Friedrichshafen,

a German town, on Lake Constance. These children, numbering 200 or more, are brought about this time of the year by their parents, who are poor and live mostly in the Austrian Tyrol and on the Swiss frontier. Swiss and German farmers examine the "goods." and choose the strongest and healthiest children to work for them throughout the summer.

The prices are arranged between the farmers and the parents, and a contract is signed. The farmer agrees to give food and lodging to the boy or girl he engages and \$5 to \$10 after five to six months work, which is for 17 to 18 hours a day. The farmer does not usually accept any responsibility concerning the moral conduct of the boy or girl who has "entered" his service, and whom he treats as a farm hand and on the same footing as his other employees.

The following is roughly a day (Sunday included) in the life of one of these child slaves: Rise at 4 a. m., prepare coffee for the farm and milk the cows, drive the animals up the mountain slopes, return to the farm about 11 a. m. to help (if a girl) to prepare the dinner, and (if a boy) to chop wood for the winter. Dinner at 12, then odd jobs, and in Switzerland school for one hour and a half. After piece of bread and goes up the mountain to see that the cattle have not strayed and to look after them until milking time, about 8 p. m., and drive them down. Toward 9 o'clock the cattle are driven in their stables for the night, and supper is served. Bedtime is rarely earlier than 10 p. m., and the child "slave" must be up at 4 a. m. again to continue the daily routine.

Those who set to work preparing these petitions found the work far more technical than had been supposed. Moreover, all voters must certify they affilate, and expect to affiliate, with the party of the candidate for whom they sign. The development of the American public school system in the Philippines, modified to meet local conditions, has been a most remarkable one during the past ten years, yet the opportunity for further growth is very great. The organization is still in its primitive period, and these hundred young men who have just sailed from San Francisco to add their training and experience to the nine thousand American and Filipino teachers already on the ground and familiar with the local situation, will result in a very material advance in the performance of our obligations in the Philippines.

Tompkinsville, Ky., June 1 .-There is almost a corn famine in Monroe county. Corn now sells for a dollar a bushel, and it is predicted that before the middle of June it will go at least to \$1.25 a bushel. Most of the corn has been sold either to city dealers or to distillers within the county. There would be much suffering among livestock but for the excellent pasturage, of which there is an abundance.

#### KENTUCKY DEATH HOUSE

Thirteen men now occupy the death house at the Eddyville penitentiary awaiting ends in the electric chair. This is said to be the largest number of men ever under sentence of death at one time in Kentucky. Those who make a study of such things say that one reason there has been more tendency of late to impose the death penalty is that the execution of the sentence takes place at Eddyville and not where the crime occurred.

If your back gives out; Becomes lame, weak or aching; If urinary troubles set in, Perhaps your kidneys are "in a bad way."

Don't delay-use Doan's Kidney Pills.

Here is good evidence of their worth:

Mrs. W. N. Bartlett, 620 Triplett St., Owensboro, Ky., says: 'Several years ago I used Doan's Kidney Pills and cannot say too much in their praise. For a long time I had nearly every symptom of kidney disease. My back ached terribly and at night I did not sleep well. During the day I was nervous and in bed all the time My feet became swollen and I knew I required a good remedy to cure me. I had often heard Doan's Kidney Pills highly recommended, so I procured a supply and began taking them as directed. Doan's Kidney Pills cured me and they are the only remedy I will ever use for kidney trouble. I can highly r commend them, as they lived up o the claims made for them."
